

Welcome

IH-35 Corridor Development Program

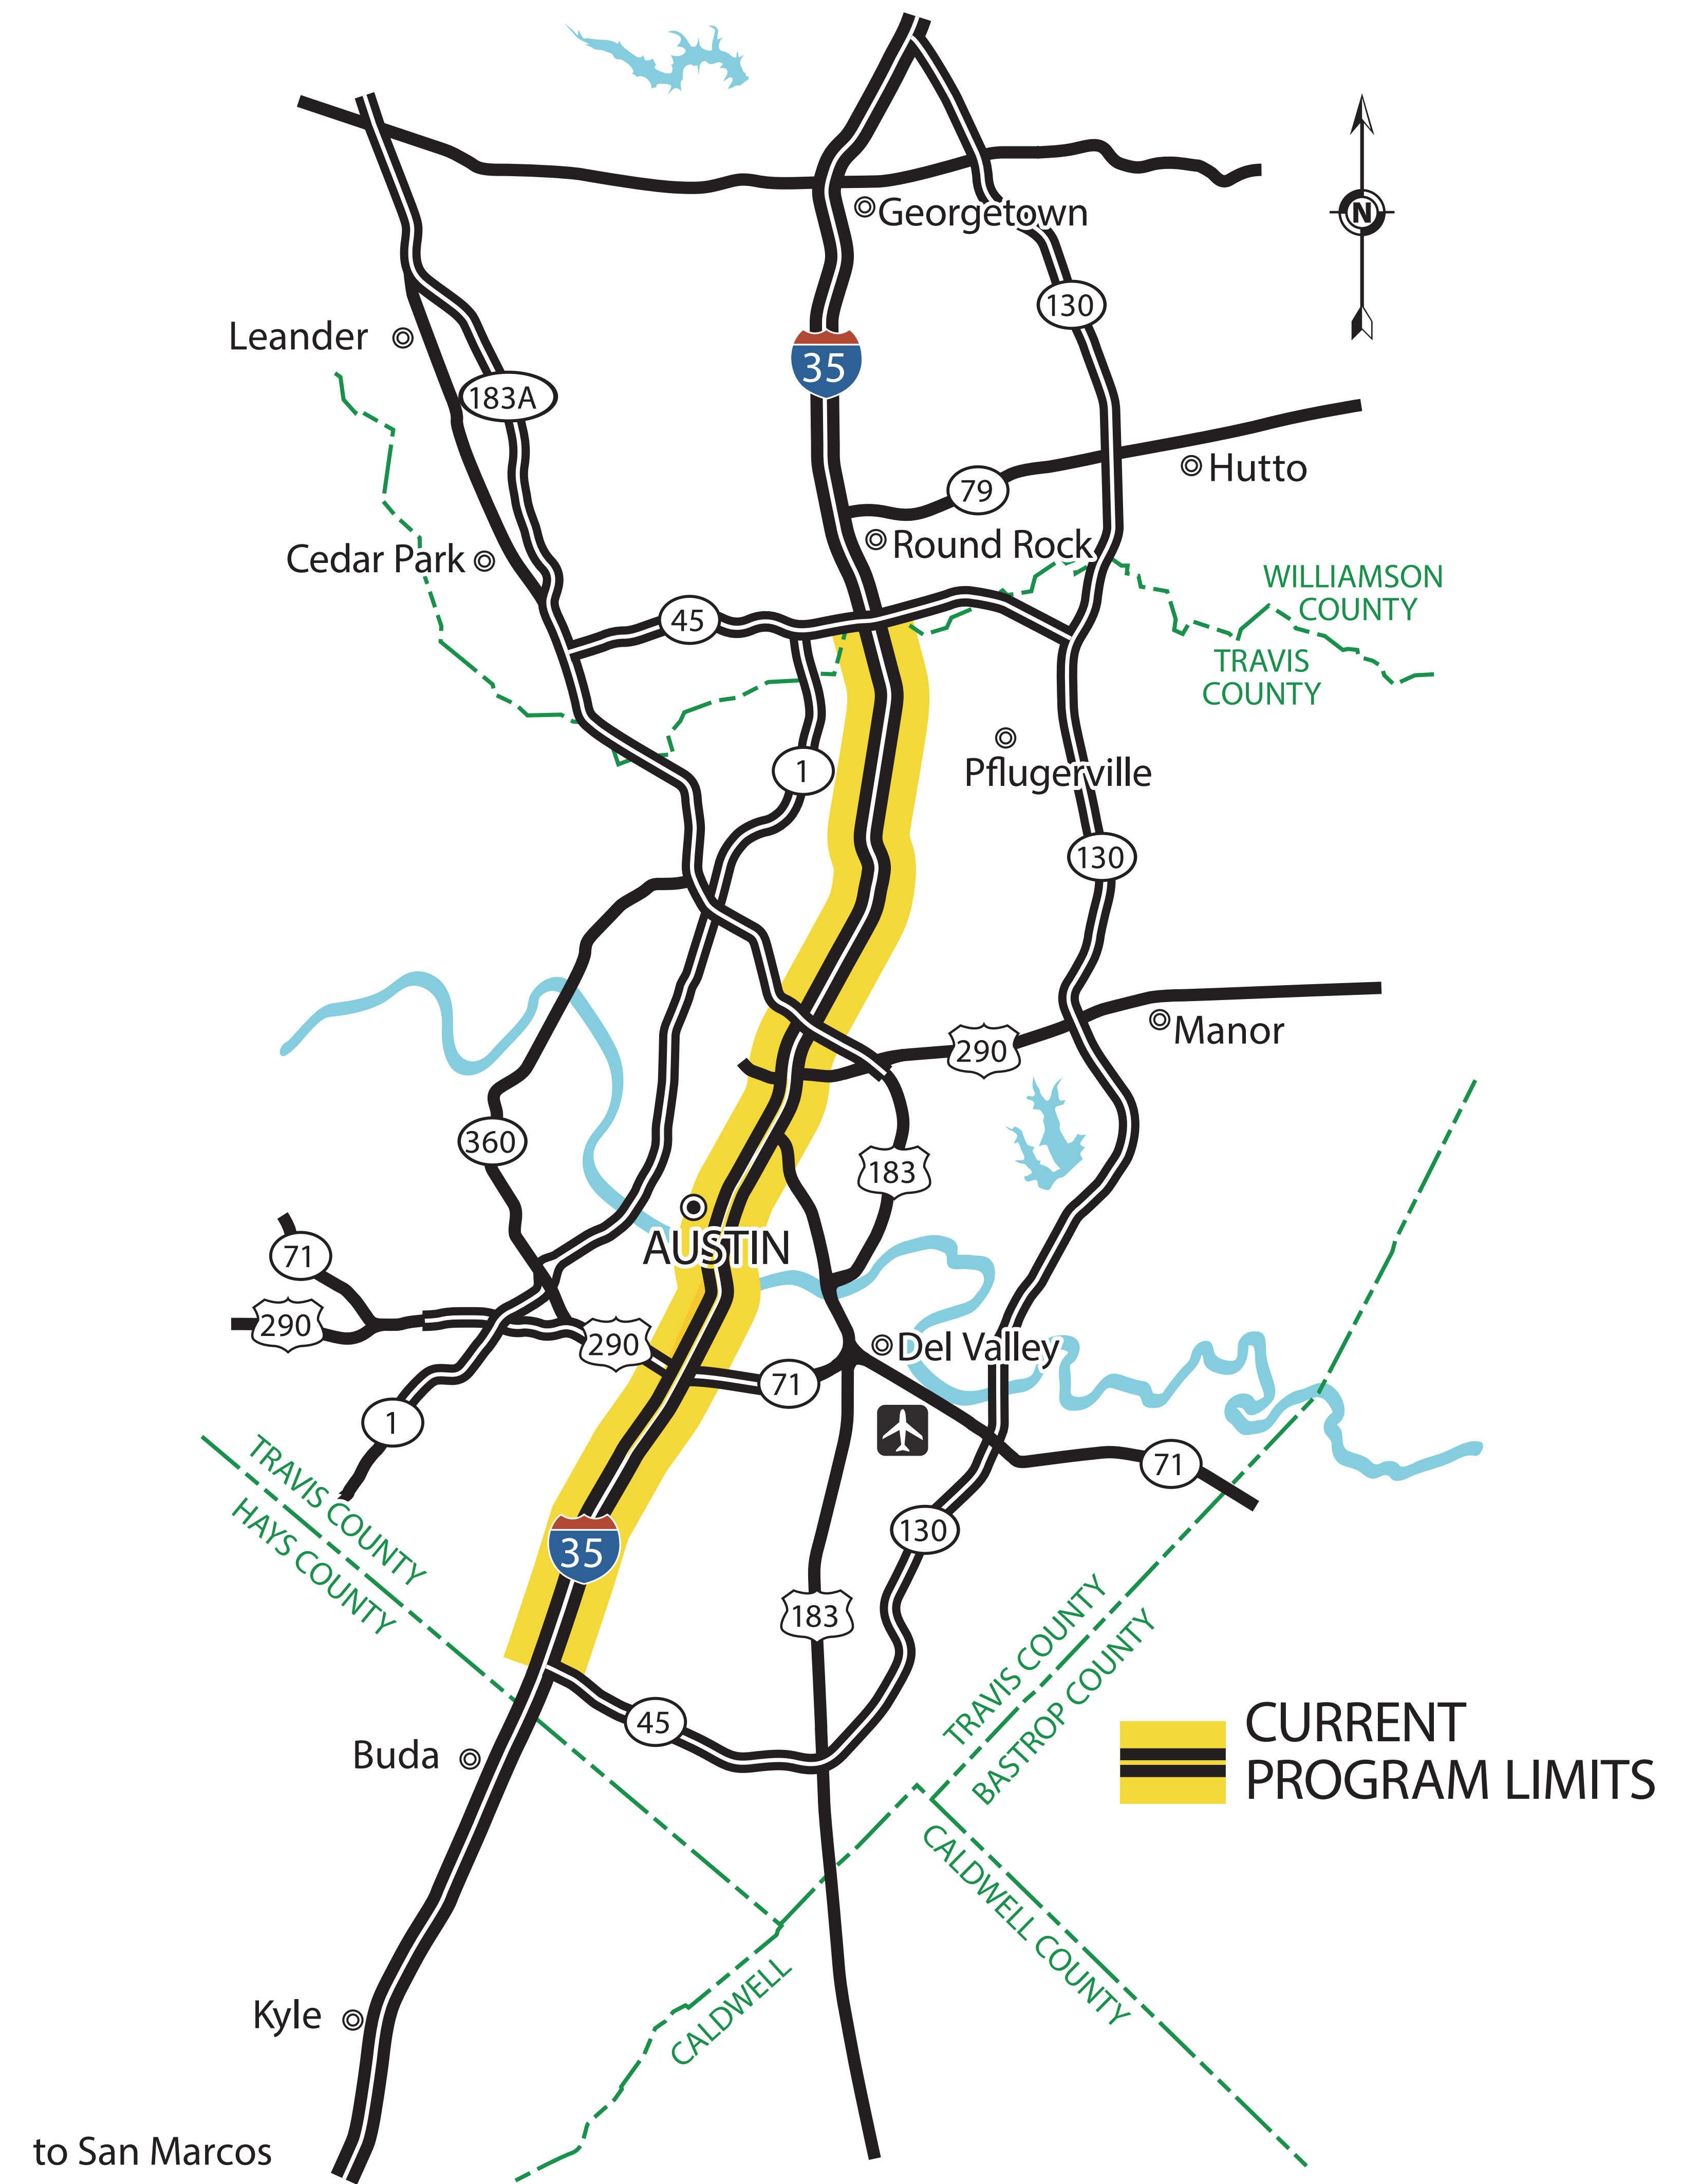

Stakeholder Open House
September 25 & 27, 2012

Program Limits

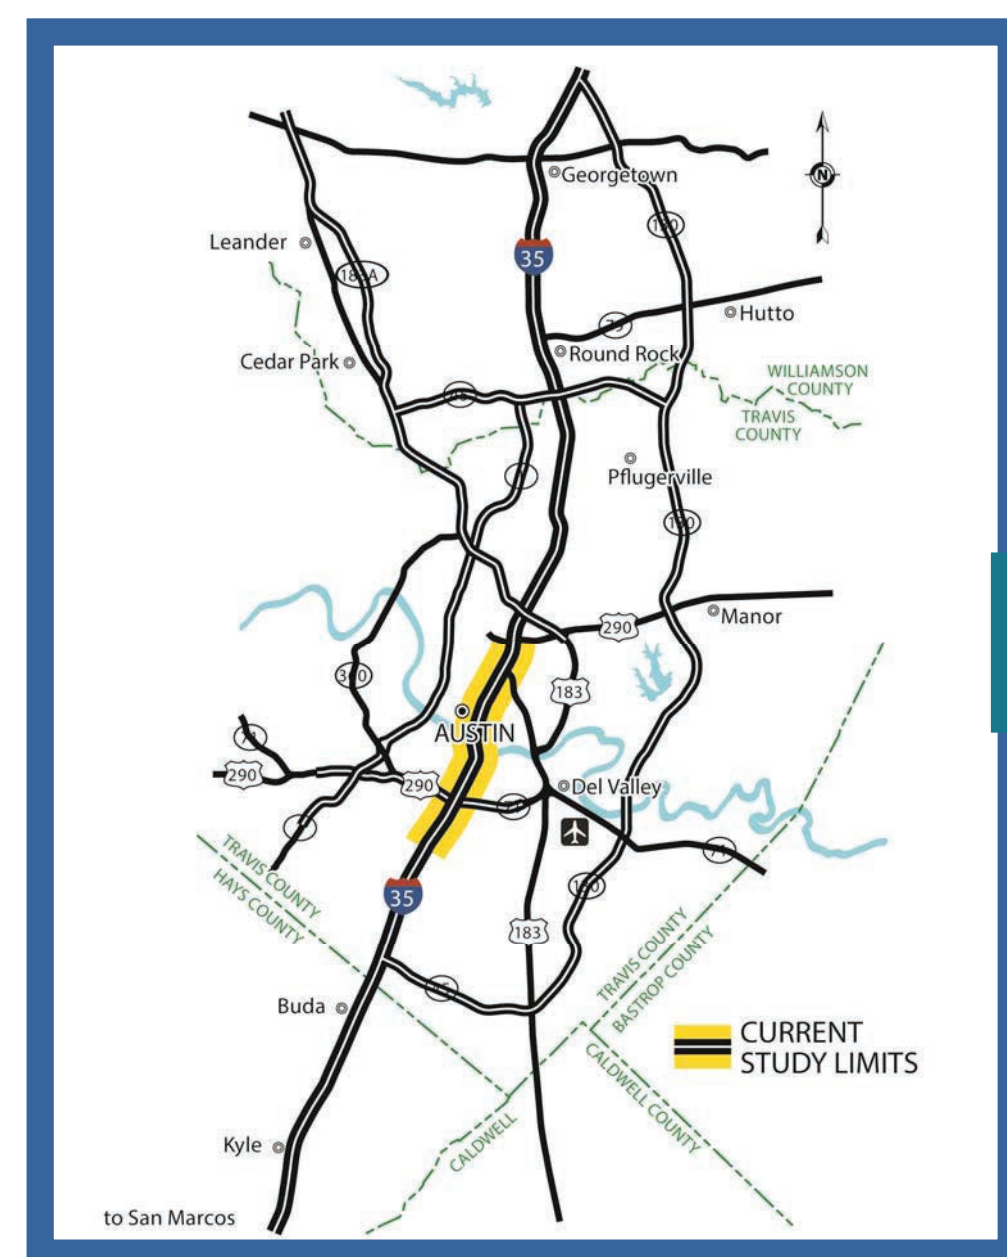

- SH-45N to SH-45S
- 27 miles

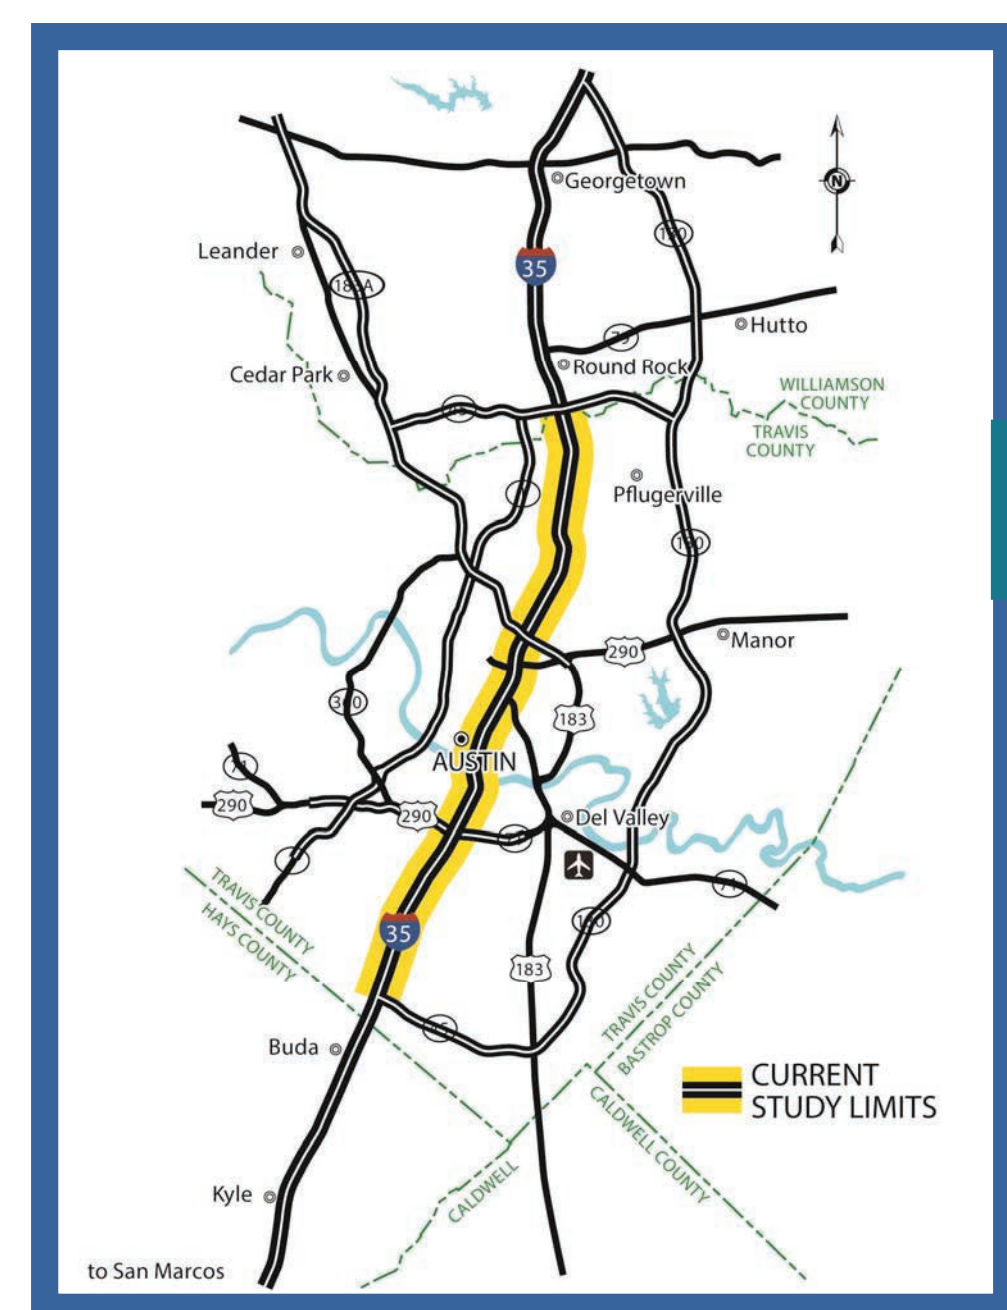

Program Schedule

Core limits – US-290E to William Cannon

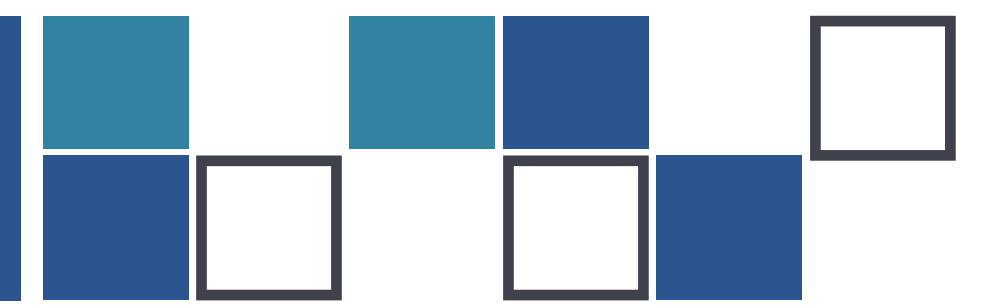

Aug - Dec 2011 Jan Apr Jul **Sep** Dec 2012 Jan Apr Jul Sep 2013

Expanded project limits – SH-45N to SH-45S

Aug **Sep** Oct Nov Dec 2012 Jan Mar May July Aug Sep 2013

Summary of Core-area Issues

Interfacility Connections

- Difficult or missing movements
- Travel time penalty for connecting

Inadequate Ramps to IH-35

- Substandard design of ramps
- Creates bottlenecks / queueing on IH-35

Congestion on Freeway Lanes

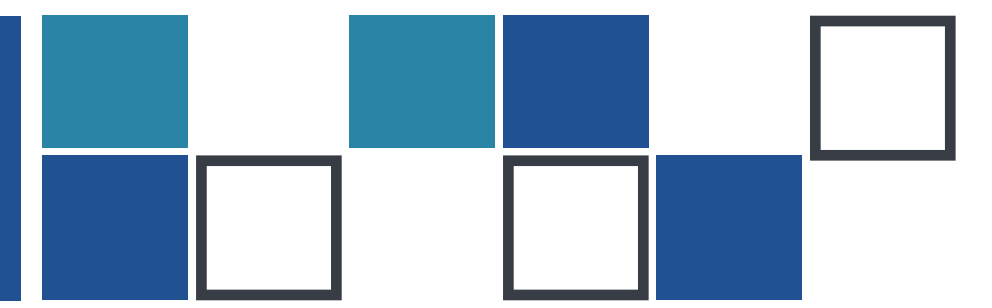

- Inefficient use of lower / upper decks
- Congestion throughout the corridor

Bicycle / Pedestrian Connections

- Lack of connections across IH-35
- Crosswalk / signal safety on frontage roads

Sample Short and Medium Term Projects

Express Lanes

- Provide extra capacity
- Can be used by carpools, buses, or toll users

Dynamic Shoulder Lanes

- Provide extra capacity
- Only operational when congested

Better Traffic Management

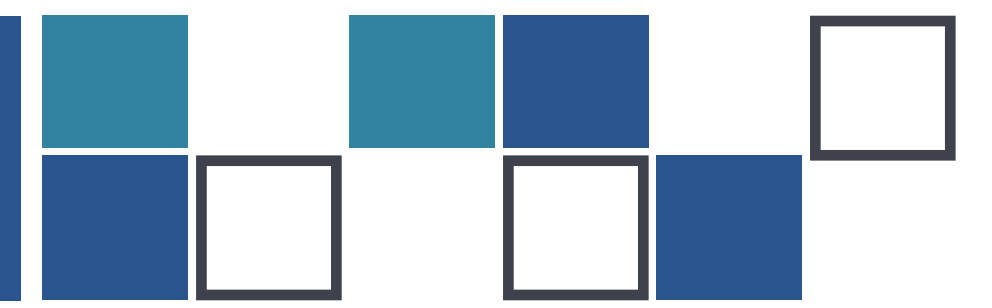

- Smooth traffic flows
- Reduce crashes

Alternative Ramp Designs

- Roundabouts for safety
- Reversing on and off ramps

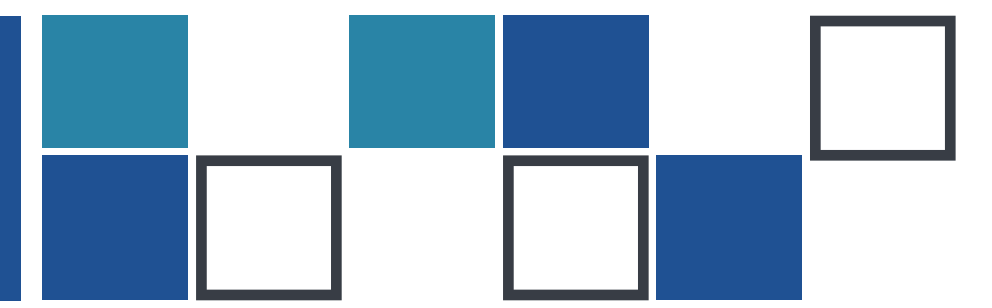

Anticipated Program Benefits

- **Improved traffic congestion management**
- **Enhanced cross-corridor connectivity**
- **Reduced delay times**
- **More reliable travel times**
- **Greater mobility**

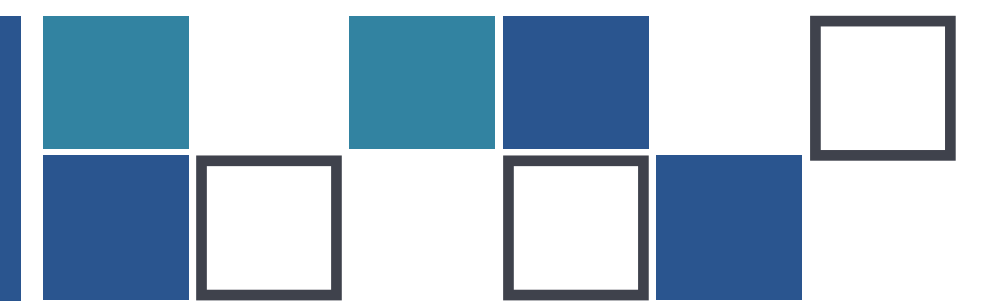

Today's Objectives

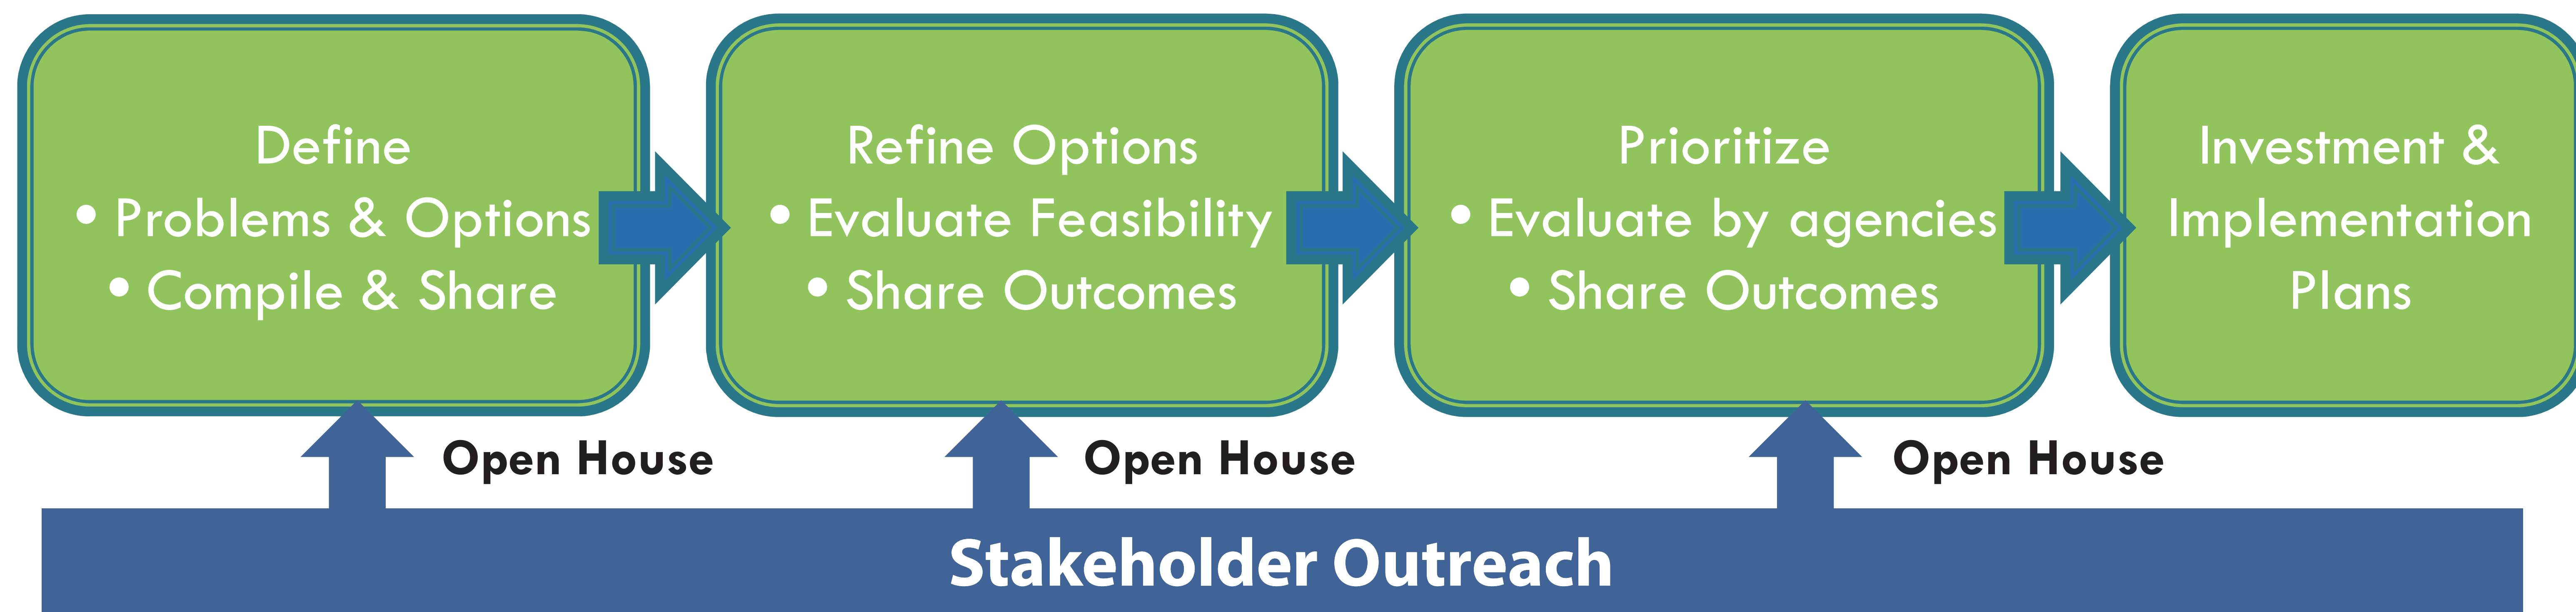

- **Based upon your experiences on IH-35,** what issues most impact your quality of travel?
- **What ideas do you have?** We need your help to identify all possible solutions.
- **Get involved; Stay Involved!**

Next Steps - Expanded Project Limits

- Identify a feasible "program of projects" for agencies to implement
- Secure funding for individual projects
- Conduct environmental and public review
- Develop individual projects

Stay Involved; Continue to comment
